

Rubio®
MONOCOAT

If you do it right,
it will last *forever*.

- Massimo Vignelli

Domotex 2019, Hannover

Little did we know when Rubio Monocoat started in 2005, we wouldn't be where we are today. And maybe we were lucky that we didn't know about the difficulties and objections we had to overcome "One layer is impossible!". But with a little ignorance, patience, self-confidence, good people and a strong believe in our product, "we came, we saw, and we conquered" (Julius Caesar).

Today Rubio Monocoat products are sold in 82 countries and still counting. From Russia to Peru, and United States to Australia, we are present on every continent. Currently every hour of every day you can find someone in the world using Rubio Monocoat.

This achievement wouldn't be possible without our loyal distributors. We are lucky and happy to work together with all these wonderful people. They are doing a great job in building the Rubio Monocoat brand and in this book, we have documented some of their tremendous work. As you will see the details of these beautiful projects shows their belief and dedication to the Rubio Monocoat brand.

A big thank you for all your hard work!
And don't forget; "Keep calm and just apply Rubio Monocoat!"

Lex Schaap,
Export Director

4 | **Under, Lindesnes • Norway**

Under is the world's largest under water restaurant. The spectacular building was designed by Snøhetta. It's a 34 meters high concrete construction that is half-sunken into the icy waters of the Lindesnes, five meters under sea-level.

When you step into the restaurant, your unique undersea journey begins. Here you can descend all the way to a depth of five meters without a diving suit. Just walk down the stairs. At the mesanin there is a bar with a relax area where guests can sit before and after the meal.

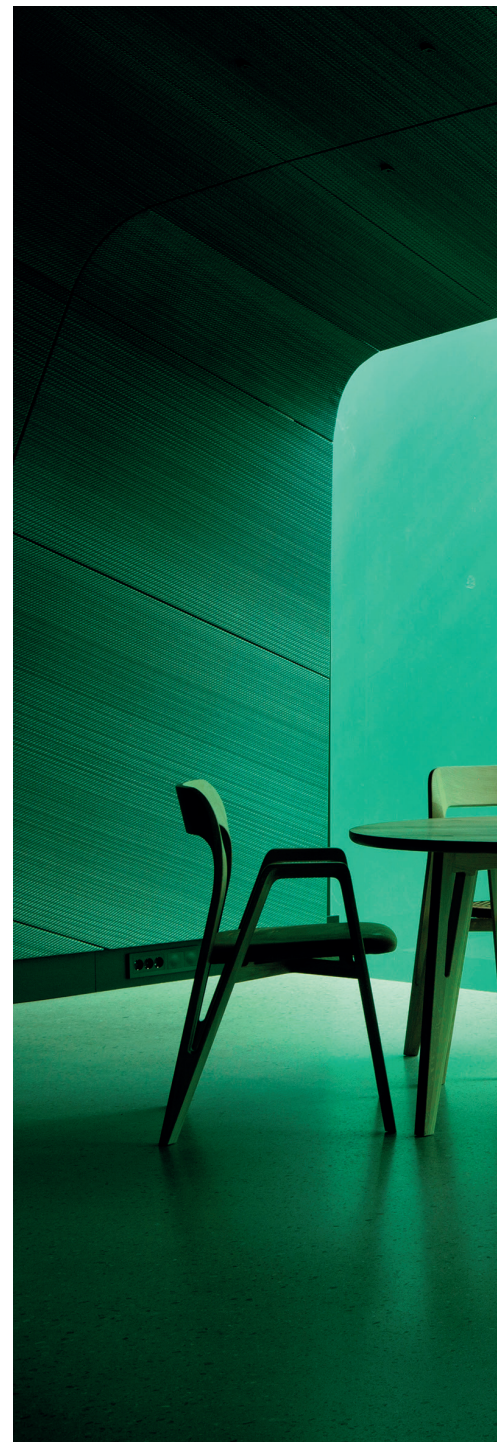

Down in the restaurant, the notion of an "ocean view" takes on a whole new meaning. There, a huge glass wall will give you a unique insight into the bustling life in the sea (Skagerrak) outside.

At Hamran tells us that the idea of the whole project was «taking the nature with us inside». "Rubio Monocoat is the best choice here because it maintains the natural look of the wood, after application. Plus it results in a surface that can withstand the intense use that is typical for a restaurant."

Review by Janne R. Werdal

Product Rubio Monocoat Invisible Oil System **Wood type** Norwegian oak

Many thanks to Inger Marie Grini, Snøhetta, Under, Hamran and Rubio Monocoat Norway

Villa Boök • Finland

Product *Outside* Rubio Monocoat Sunprimer HWP and Rubio Monocoat Hybrid Wood Protector *Inside* Rubio Monocoat Precolor Easy and Rubio Monocoat Oil Plus 2C **Colour** Nordic White and custom-made colour
Wood type spruce logs
Many thanks to Timo Pyykönen, Polarlifehouse and Chips and Bricks

Projects by Bjorn Verlinde • Belgium

Besides wood, there are other materials you can work with. Why not choose MDF? The applications are endless, for example kitchen cabinets, doors, stair railings, baseboards, etc. There are plenty of options. Plus, composite panels are very popular right now.

MDF is an economical alternative, very easy to machine and easy to mill and saw into any shape, because it doesn't splinter thanks to its very fine fibre structure.

Product Rubio Monocoat Oil Plus 2C **Colour** Pure and custom-made colour
Wood type viroc and oak veneer **Many thanks to** Bjorn Verlinde and Rubio Monocoat Belgium

Médiathèque Metz, Metz • France

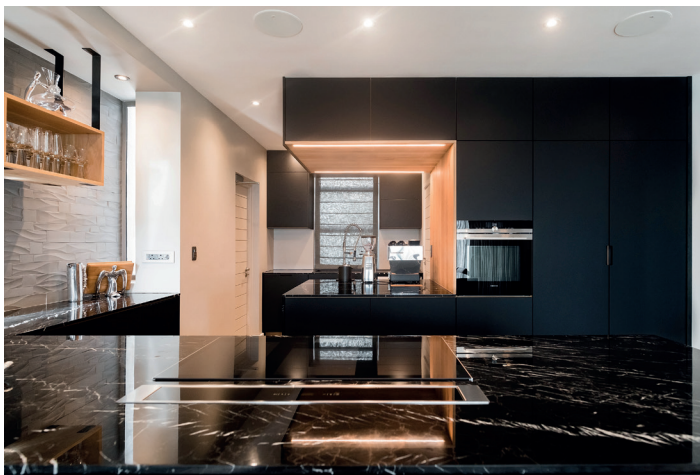

Product Rubio Monocoat Hybrid Wood Protector **Colour** Poppy and custom-made colour **Wood type** douglas

Restaurant Mamizza, Bucharest • Romania

Product Rubio Monocoat Oil Plus 2C **Colour** Walnut **Wood type** oak
Many thanks to Kenosis Design and Rubio Monocoat Romania

The interior design of Mamizza was done by Kenosis Design. In addition, the owner of the restaurant had a challenge for them: “provide food-safe finishing and wear-resistant tables”. Kenosis Design immediately opted to work with Rubio Monocoat Oil Plus 2C, because it allows you to colour and protect in one coat in an environmentally friendly way.

DTI Group Office, Wijk en Aalburg • The Netherlands

Dutch design studio VEVS transformed DTI Groep's office building into a contemporary office with a brand-new entrance and conference rooms. Rubio Monocoat was the preferred partner because according to the architect "it is the perfect product to treat, colour wood and preserve the natural touch/value".

Review by VEVS

Product Rubio Monocoat Oil Plus 2C and Rubio Monocoat Hybrid Wood Protector **Colour** White 5% and Charcoal
Wood type Accoya and lariks **Many thanks to** Rob van Sprang, Martijn d'Herripon, Mike Bink and Rubio Monocoat The Netherlands

Product Rubio Monocoat Precolor Easy and Rubio Monocoat Oil Plus 2C **Colour** Mystic Brown, White 5% and Silver Grey
Wood type European oak **Many thanks to** Rubio Monocoat Ireland

Bootshaus Ostsee, Krakow am See • Germany

—

The customer was looking for an aging effect that looks authentic and natural. Especially looking for a match with the popular thatched roof, famous for the coast area of Northern Germany, was important. Additionally, the customer was looking for a fast drying product, that is stackable quickly. The customer who is a Rubio dealer was doubting the drying time and the water peel effect when we launched Rubio WoodCream. Both these uncertainties disappeared after application of Rubio WoodCream and the customer was pleasantly surprised.

Review by Sebastian Fischer, Rubio Monocoat Deutschland

—

Product Rubio WoodCream **Colour** Aged #4 **Wood type** larch
Many thanks to Rubio Monocoat Deutschland

Office FS - Solution Space in Galeria Ethos, Warsaw • Poland

Concept store “Le Gendre Idéal”, Lamballe • France

The contractor of the project discovered Rubio Monocoat on Instagram. He contacted the company, and everything quickly gained momentum. Alexandre of Rubio Monocoat France was able to convince the contractor by giving an extensive presentation. The wide range of colours and the various excellent reviews completely convinced the customer to opt for Rubio Monocoat.

The customer was immediately impressed with the various advantages Rubio Monocoat oil offers. During the design phase, the first plusses were revealed, such as the opportunity to create your own colour and the fact that the natural look of the wood is preserved.

Review by Hélène Le Goff

Product Rubio Monocoat Oil Plus 2C **Colour** custom-made colour **Wood type** pine
Many thanks to Studio HLG - Hélène Le Goff & Lillie H., La Fabrique de l'Ouest and Rubio Monocoat France

Natural Museum of Qatar Gift Shops • Qatar

-

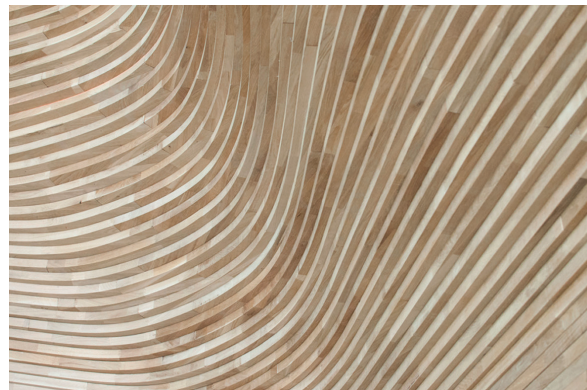

Product Rubio Monocoat FR Oil System **Colour** Natural **Wood type** European oak

Many thanks to Koichi Takada Architects, Devoto Design and Rubio Monocoat Central Europe

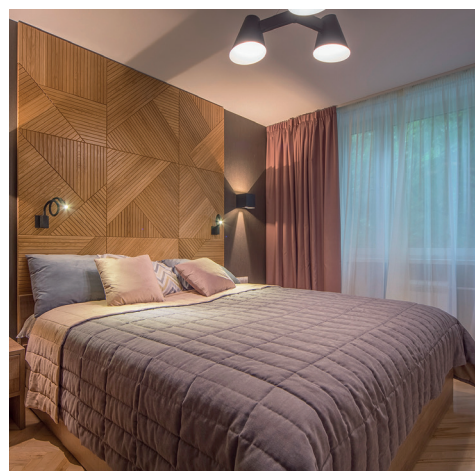

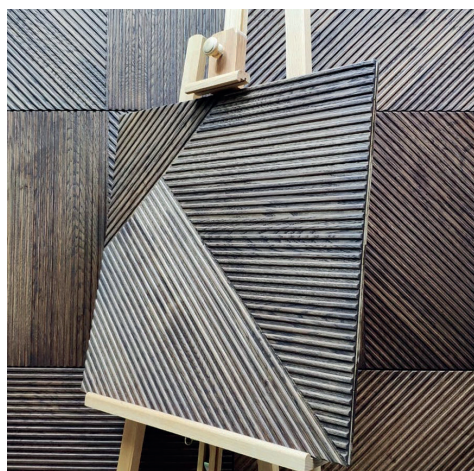

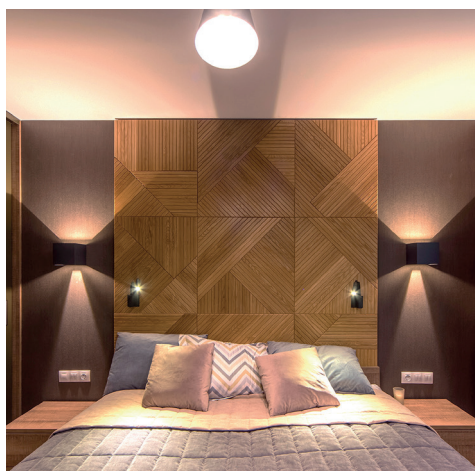

The architect Koichi Takada always likes to integrate a part of nature into his work. For this design, he was inspired by the Dahl Al Misfir, “the Cave of Light” in the heart of Qatar.

When you walk around the gift shop, you feel as though you’re walking through a canyon. The colour of the oak wood panels resembles a cliff and makes it look like sand-coloured rocks. The entire shop was lined with horizontal solid oak strips. Devoto Design designed the three-dimensional jigsaw puzzles of no less than 40,000 pieces. The shelves in the gift shop were incorporated into the flowing design to create one whole.

Designer Wood Panels by CharmWood • Ukraine

Product Rubio Monocoat Oil Plus 2C **Colour** Oak, Dark Oak and Chocolate
Wood type European oak **Many thanks to** Rubio Monocoat Ukraine

De Vrije Schippers, Ghent • Belgium

The guild house of the Vrije Schippers is one of the best-preserved guild houses in Ghent. The renovation of the building was led by the architectural firm Callebaut-architecten. And also we as Rubio Monocoat were able to contribute to this beautiful project thanks to Parket De Pauw.

In 2011, the North Sea Port harbor company bought the building and completely restored and redeveloped it with great respect for the historical elements.

The Vrije Schippers guild house was one of the 3 nominees for the Heritage Prize 2019. On Friday, October 4th, 2019, the guild house was therefore awarded the Flemish Heritage Prize 2019.

“Because of our many years of experience with Rubio Monocoat, the product has no secrets anymore. For us, Rubio Monocoat is a very reliable partner who thinks along with us and is an indispensable partner in restoration work. When you add the B-component, the drying time is shortenend, which ensures that the rooms are accessible faster for other projects. In addition, ease of maintenance is a major asset”.

Review by Luc De Pauw from Parket De Pauw

Product Rubio Monocoat Precolor Easy, Rubio Monocoat Oil Plus 2C and Rubio Monocoat FR Oil System **Colour** Intense Black, Charcoal, Mahogany and Pure **Wood type** oak and larch **Many thanks to** Luc De Pauw from Parket De Pauw, Monument Vandekerckhove, Lenzer and Rubio Monocoat Belgium

Exterior

Product Rubio Monocoat Sealer 707 Matt, Rubio Monocoat Sunprimer HWP and Rubio Monocoat Hybrid Wood Protector **Colour** White **Wood type** burned spruce

Many thanks to Vertti Kivi Design, Honkatalot 'Polarlifehouse' and Chips and Bricks

The image shows a modern wooden cabin at night. The cabin has a dark, flat roof and walls made of dark wood. The interior is lit with warm, yellow light, and the ceiling is visible through the open structure. A large, light-colored, oval-shaped object, possibly a daybed or a large basket, sits on the deck. The deck is made of light-colored wood and has a set of wide, shallow steps leading up to it. The background is a dark blue sky with some trees visible on the right.

Wall and Roof Wall

in burned spruce, has been finished with Rubio Monocoat Sealer 707 Matt.

Horsetrack Helgstrand Dressage, Uggerhalne • Denmark

–

“The result is stunning. Our riding barrier looks like new, with a warm, deep colour and with an improved natural structure of the bamboo. To continue to guarantee this look, the barrier is cleaned with Rubio Monocoat Universal Soap. If there are any scratches, made by a kick with horseshoes or stirrups, they can be repaired easily with Rubio Monocoat Universal Maintenance Oil, both on the spot or the entire barrier.

We opted for Rubio Monocoat because of their extensive colour range, high service level and professional approach to providing solutions. Helgstrand Dressage has many events every year and visitors from all over the world, so our woodwork has to be in perfect condition at all times. Rubio Monocoat Nordic was able to provide us with exactly what we had in mind.”

Review by Andreas Helgstrand

–
