

Rubio®
MONOCOAT

If you do it right,
it will last *forever*.

- Massimo Vignelli

Domotex 2020, Hannover

Dear Rubio Partner,

It is a great honour to write, as CEO of Rubio Monocoat, an introduction in the fifth edition of our Reference Book. Our world has been challenged this year and by the time you open this book, I hope you have been safe and COVID-19 is history for you and your family.

Despite all the changes around us, wood is here to stay! At Rubio we are passionate about wood, just like you. Every day we aim at developing unique products that empower you to protect, enhance and maintain the natural beauty of wood. We are thankful and proud to have gained the trust of so many wood professionals, architects, manufacturers and wood lovers all around the world, even during these special times.

The projects in this book are a result of the creativity of our customers, partners and Rubio family members. Rubio not only wants to support you, we want to inspire and guide you in each step to enable you to create your personal and perfect wood project. Each of these projects are created by unique people, who are wood-proud, and Rubio is honored to be part of their inspiration and satisfaction.

Last but not least, I personally feel like I'm part of a family. A growing team of passionate people who care about family values, respecting nature and the natural elements for wood. A family that cares for each other and about protecting our planet for future generations.

Thank you for exploring these beautiful creations. Welcome to our family.

Wim Maes
CEO Rubio Monocoat

Private home Ronse • Belgium

Platte Shop Private House • Lithuania

-

This beautiful house in Western Latvia definitely deserves a spot on our 'houses of our dreams' list. From the first site visit, the owners knew that nature was going to play a major role in the design of their home. They opted for a sleek look for both the exterior and the interior of the house. They were able to add a warm feel to the sleek look thanks to our wide colour range of natural wood tones. Which, as you can see, turned out to be a successful combination.

For the owners it was clear: the natural wood tones had to be the binding factor in every room and ultimately ensure unity. To achieve this, almost all furniture in the house was finished with Rubio Monocoat Oil Plus 2C, colour Smoke 5%. From the kitchen furniture to the bedroom and bathroom furniture, all the wood got a Rubio Monocoat look.

In order to respect the natural look of the wood, they wanted to make use of light sources, both natural and artificial. The wooden ceiling was an important factor to consider during this exercise. The owners wanted to create a clear contrast with the light wood colour of the furniture and decided to go for a dark wood tone. The ceiling was then treated with our Rubio Monocoat Oil Plus 2C, colour Charcoal.

Rubio Monocoat Hybrid Wood Protector, colour Charcoal, was used for both the façade and the terrace. Throughout the day, this dark colour creates different reflections and adds a fourth dimension to the striking façade. So there is always a certain, but always different, atmosphere when you look at the house.

Many thanks to Sculptform, Woods Bagot, Peter Bennets and Rubio Monocoat Australia

Buddha-Bar restaurant • Serbia

Buddha-Bar restaurant chose to use Rubio Monocoat products for the installation and finishing of the floor. In the first place, our parquet adhesive Rubio EasyBond, was used to install the wooden floor. Rubio EasyBond is universally applicable for nearly all types of wood and situations, contains no plasticizers and is hard elastic.

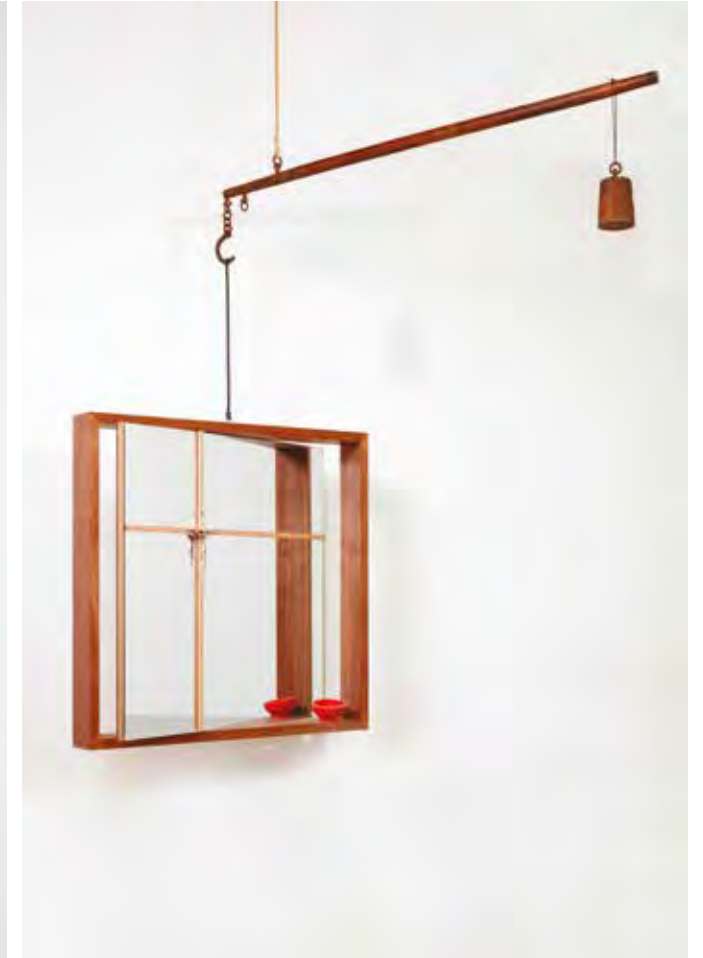

Then they decided to treat the wood with Rubio Monocoat Oil Plus 2C, colour Ice Brown. This colour creates the warm and cozy appearance of the restaurant. Finally, they also used Rubio Monocoat Universal Maintenance Oil, colour Pure. The oil is ideal for high traffic areas that require extra protection such as public areas, restaurants, offices, hotels, ...

Buddha-Bar restaurant chose our Rubio Monocoat products thanks to Magic Floor. Magic Floor was able to convince them of the quality of our products and assured them that Rubio Monocoat always meets the customer's wishes. No sooner said than done: the result is amazing!

Product Rubio EasyBond, Rubio Monocoat Oil Plus 2C and Rubio Monocoat Universal Maintenance Oil
Colour Ice Brown and Pure **Wood type** European oak

Coffee bar Oriunda • Peru

-

A cup of coffee tastes so much better when you can enjoy it in a modern and cozy interior. Coffee bar Oriunda in Lima (Peru) got the memo and turned their coffee bar into a trendy meeting place. In their wide assortment of different types of coffee, the quality of the Peruvian coffee is central. Coffee lover or not, at Oriunda there's something for everyone's taste!

The coffee experience is a priority at Oriunda, from the moment you walk in until you have your favorite coffee in your hand. They've given a lot of thought to the lay-out and furnishing of the interior as they used natural elements such as wood and green accents.

Kárstico Arquitectos designed and built this trendy coffee bar. He chose to finish the bar with huayruro wood that was first treated with Rubio Monocoat Hybrid Wood Protector, colour Chocolate and then with Rubio Monocoat Universal Maintenance Oil, colour Pure. The walls and benches are made of phenolic plywood and finished with Rubio Monocoat Hybrid Wood Protector, colour Chocolate.

The combination of the wood with the green accents ensures that the natural elements are beautifully emphasized. The result is a beautiful coffee bar that is worth a visit!

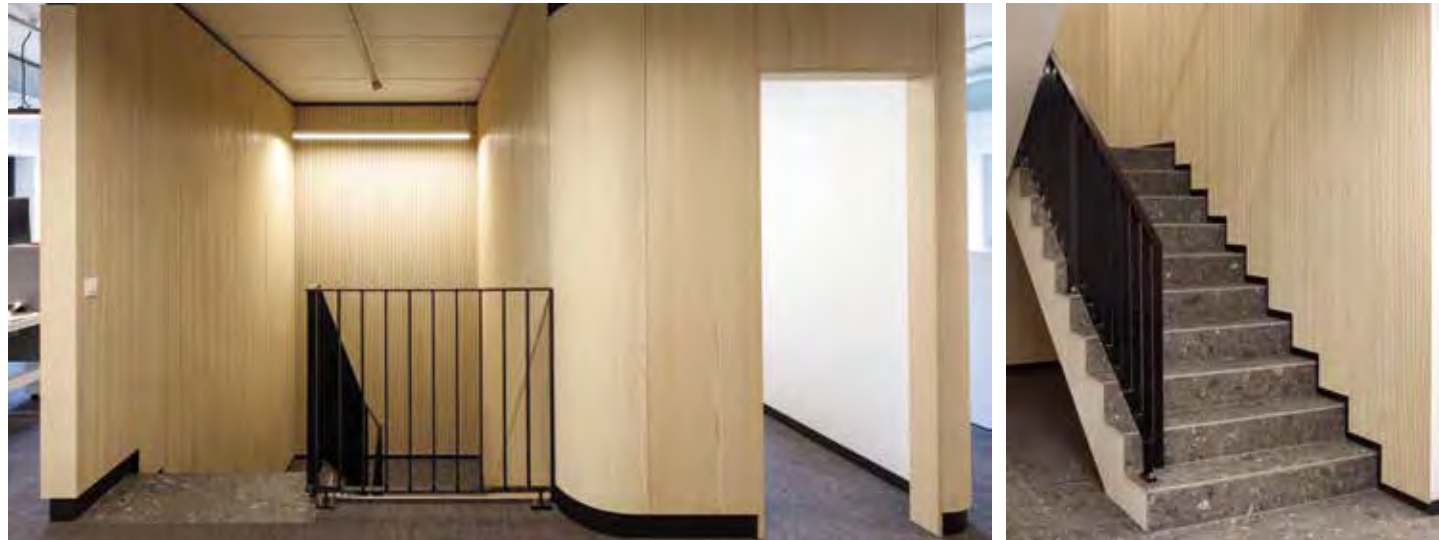

-

Product Rubio Monocoat Hybrid Wood Protector and Rubio Monocoat Universal Maintenance Oil **Colour** Chocolate and Pure **Wood type** huayruro wood and phenolic plywood

Wood type oak veneer Many thanks to Internova, Dusko Vlaovic and Rubio Monocoat Zentral Europe

Private home Waregem • Belgium

This private home in Waregem underwent a real transformation: from an old house to a modern one with a sleek look and feel. The aim was to make the best possible use of all the space in the house. In order to create the sleek look, the owners worked with two colour accents: white and black. They wanted a natural touch in their interior to which the colour accents needed to blend in smoothly. So what better material to use for this project than wood? They chose a light colour for the floor, namely Rubio Monocoat Oil Plus 2C, colour Smoke 5%. To create a natural contrast, Rubio Monocoat Oil Plus 2C, colour Charcoal, was used for the cabinets.

They installed a wooden fence around the house, which, thanks to the right colour, shows up very well in the garden. Also outdoors colour accents can make the garden feel more like an extension of the living room. That is why the wooden planter got the same colour as the fence, with a beautiful result. The owners opted for a pre-treatment with Rubio Monocoat Sunprimer HWP, colour Black and as wood protection they used our Rubio Monocoat Hybrid Wood Protector, colour Black. The combination of these two products results in the intense black colouring.
