

Exterior Wood Cleaner

Efficient cleaner for exterior wood

Exterior Wood Cleaner is a preparatory cleaner for all types of exterior wood (wooden patios, fences, exterior doors, carports, terraces, etc.) and composite. The product removes grey discolouration, green deposits and dirt.

PRODUCT INFORMATION

› Specific characteristics

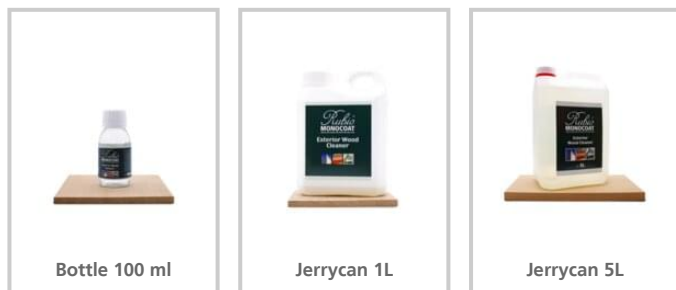

Benefits

- New wood:
 - Grease that appears naturally in some types of wood is removed.
 - The pores are opened, this guarantees that the protective layer will last longer.
- Wood previously treated with another brand's product:
 - For saturation products applied to the wood longer than a year: Exterior Wood Cleaner will remove all residues from previous treatments.
 - If a paint or varnish has been applied, the surface must be sanded, stripped or sand-blasted first.
Attention: After sand-blasting, the consumption of the finishing oil increases.

› Technical characteristics

- Physical state: liquid
- Colour: transparent
- Odour: characteristic
- pH: 1,3
- Density: 0,99 kg/L

› Packaging

› Storage

The product can be stored for up to 24 months. Store in dry conditions and in the original packaging. Keep away from frost. Do not store above 30°C.

APPLICATION INFORMATION

› Instructions

STEP 1. Dampen the surface with water. Use a garden hose.

STEP 2. Apply some undiluted Exterior Wood Cleaner.

STEP 3. Scrub the treated area with a nylon scrubbing brush in the lengthwise direction of the wood until it is clean. This will cause the product to foam. For stubborn stains, repeat the treatment.

STEP 4. Rinse thoroughly until all the foam has disappeared.

STEP 5. Allow the surface to dry well (\pm 30 minutes at a temperature of 20°C and proper ventilation).

STEP 6. Treat with the Rubio Monocoat exterior wood protection product of your choice.

› Tips & Tricks

- A good preparation is crucial to ensure a lasting protective finish. All new, greyed, and previously treated wood must always be treated beforehand with Exterior Wood Cleaner.
- Be careful when working near a fish pond. This product is harmful to aquatic life with long-lasting effects.
- Are you working overhead? Then wear protective goggles to prevent any product from getting into your eyes. The product is not harmful, but it will cause irritation in contact with the eyes.
- You can also use this product as a stand-alone product, for example to refresh weathered furniture after the winter. No extra treatment is required here. You can see the result of the product immediately.

› Consumption

Manual: \pm 15 m²/L

** These usages are merely indicative. Results depend on wood type and method of preparation. It is always recommended to make a sample in order to calculate the exact usage.*

Check the packaging and the safety data sheet for more details.
